Contents of Volume 8

NUMBER 1 MARCH 1984

Toxicity of Fire Effluents: Application of Test Data *1*
K. SUMI

Some Aspects of Fire Safety Design on Railways *6*
D. A. SMITH

The Incapacitative Effects of Exposure to the Thermal Decomposition Products of Polyurethane Foams *10*
D. A. PURSER AND P. GRIMSHAW

Flame-retardant Paints *17*
L. A. O'NEILL

Rate of Heat Release Measurements with the Swedish Box Test *20*
G. HOLMSTEDT

An Investigation of Fire Plume Impingement on a Horizontal Ceiling: 1—Plume Region *28*
H.-Z. YOU

A Procedure to Calculate Fire Resistance of Structural Members *40*
T. T. LIE

Home Office Legislation, Regulations and Controls in the UK in Respect of Premises within the Scope of the Fire Precautions Act 1971 *49*
S. D. CHRISTIAN

Letters to the Editor
Toxicity of Teflon® Similar Results Obtained with Radiant–Convective Heat Sources or in the Hot Fire Gases *54*
Y. ALARIE AND M. S. STOCK

Reply to 'Toxicity of Teflon®: Similar Results Obtained with Radiant-Convective Heat Sources or in Hot Fire Gases' *55*
S. J. WILLIAMS AND F. B. CLARKE

Reply to: 'Combustion Product Toxicity: Dependence on the Mode of Product Generation' and 'Toxicity of Teflon®: Similar Results Obtained with Radiant–Convective Heat Sources or in Hot Fire Gases' *56*
M. M. BIRKY

NUMBER 2 JUNE 1984

Predicting Flash Fire Protection of Clothing from Laboratory Tests Using Second-degree Burn to Rate Performance *57*
W. P. BEHNKE

Test Methods and Standards: Fire Performance of Products *64*
W. H. K. BECKER

Application of Test Results to Analysis and Control of Fire Growth Hazards *69*
P. H. THOMAS

Effective Thermal Inertia in Relation to Normalized Heat Load *77*
G. WILLIAMS-LEIR

Development of the Cone Calorimeter—A Bench-scale Heat Release Rate Apparatus Based on Oxygen Consumption *81*
V. BABRAUSKAS

Failure Probabilities of Constructions Designed for Fire Resistance *96*
J. R. MEHAFFEY AND T. Z. HARMATHY

A Room Fire Simulation Model *105*
B. HÄGGLUND

NUMBER 3 SEPTEMBER 1984

Specification of Combustible Materials for Passenger Train Design *113*
P. J. ALLENDER

Effect of Calcium Carbonate Filler on the Fire and Smoke Properties of Moulded Polypropylene *125*
S. J. GRAYSON AND D. A. SMITH

Characterization of the Burning Behaviour of Polymeric Materials *137*
K. T. PAUL

The Extinction of Hydrocarbon Flames based on the Heat-absorption Processes which Occur in them *148*
C. T. EWING, J. T. HUGHES AND H. W. CARHART

Short Communications—The Future
Tomorrow's Safety is Today's Research *157*
P. WATTERS

Future Fire Research Policies *160*
V. SJÖLIN

Aspects of Fire Research in Japan *164*
H. SUZUKI

Letters to the Editor
On the Potential of Fire Spread *172*
P. H. THOMAS AND E. G. BUTCHER

On the Potential for Fire Spread *173*
T. Z. HARMATHY AND J. R. MEHAFFEY

NUMBER 4 DECEMBER 1984

The Performance of Various Testing Columns in Small-scale Horizontal Burning Studies *177*
R. K. WHARTON

Zirpro Wool Textiles *183*
L. BENISEK

Radiative Ignition of Thermoplastic and Char-forming Materials *196*
F. R. S. CLARK

CONTENTS OF VOLUME 8

Hazard Assessment Techniques Used in the Chemical Industry and their Possible Uses Elsewhere *199*

R. F. SIMMONS AND B. J. TYLER

Rate of Heat Release by Oxygen Consumption in an Open Test Arrangement *206*

I. G. SVENSSON AND B. A.-L. ÖSTMAN

Fast Surface-temperature Measurement for Fire Tests *217*

R. CHITTY

Short Communication

Burning, Pyrolysis, Combustion and Char-oxidation: Need for Clarifying Terminology *224*

T. Z. HARMATHY
